KENTEKENSTOP.NL | WHAT TO DO IF YOU RECEIVE THE LETTER

LETTER "ONJUISTE AANGIFTE BPM" RECEIVED?

How to secure your position.

1. Note the dates: letter, receipt, inspection (schouw). Keep the envelope.

2. Keep your file complete: declaration, payment receipt, valuation report with photos, purchase invoice, foreign papers, all mail. Take dated photos of the car as it is now.

3. Ask in writing for the reasons: the DRZ survey record and photos, what is wrong per damage item, and the value the inspector considers correct.

4. Ask the inspector in writing for an additional assessment (naheffingsaanslag) if the inspector maintains that position, and for the fiscaal akkoord in the meantime. An assessment is open to objection and appeal.

5. Have your appraiser respond in writing to the findings.

6. New declaration? Record in writing that you do it only to get the kenteken and that you disagree. Objection against BPM on a declaration: within six weeks.

7. The BPM may not exceed the lowest residual amount of BPM in similar cars already registered in the Netherlands (Art. 110 TFEU; HvJ C-437/12, para 42).

8. Report your case at kentekenstop.nl. With a copy of the letter your report counts as verified after checking.

AT THE INSPECTION

Bring your report, ask whether you may take photos, write down literally what is said. You can report the treatment anonymously.
